### IMPORTANT NOTES:

🚲 If you are aiming for a sub-5 hour race it is presumed you are psychically capable and able to participate in a training programme. This programme is a suggested format and should not be used if a Professional has advised you otherwise.

🚲 Always warm-up and warm-down before the suggested sessions including a stretching session. Stretching after your workout has many benefits and should be done regularly.

🚲 In order to complete the race in less than 5 hours you need to be able to maintain an average speed of 20 km/h. The programme is designed to build up to maintaining this average.
