1 min easy

MORE DETAILS:

Please go to:
www.shova.co.za

IMPORTANT NOTES:

🕒 If you are aiming for a sub-5 hour race it is presumed you are psychically capable and able to participate in a training programme. This programme is a suggested format and should not be used if a Professional has advised you otherwise.

🕒 Always warm-up and warm-down before the suggested sessions including a stretching session. Stretching after your workout has many benefits and should be done regularly.

🕒 In order to complete the race in less than 5 hours you need to be able to maintain an average speed of 20 km/h. The programme is designed to build up to maintaining this average.

Mon	Tue	Wed	Thu	Fri	Sat	Sun
26 am: Rest pm: 40km cycle. Easy effort.	27 REST DAY	28 am: Hill work: 2 repeats of a 10 min climb pm: Stretchnig session or massage	1 / 29 am: Trainer session + CSE pm: 40km cycle.
